# ABOUT US

## ♥ HELLO THERE ♥

We are Tim, Amanda & Bekka- A family of photographers. We all love photography and each of us has our own style and way of looking at the wonders of the world through a lens. Collectively we have over 30 years of professional experience and we love to share our passion for photography with others.

We cover all different types of photography, including Wedding Photography- one of the many areas we specialise in.

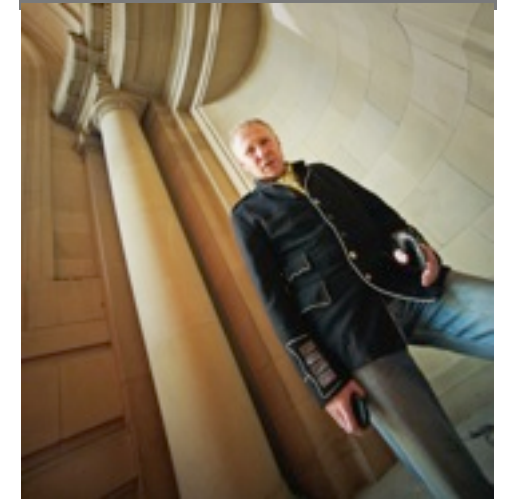

We take great pride in capturing those special, once in a lifetime moments for you to cherish. This brochure will give you a guide on our style and how we inject your personalities into your wedding images. The result will be something truly unique and magical to look back on from your wedding day.

To give you a true idea of our photographic experience in the past, between us we have worked all over the UK and even in New York (Bekka interned with renowned fashion photographer Cass Bird & lived over there last year). We are really proud to have also photographed some big names in our time such as; John Henshaw, Clint Boon, Jon Ronson, Elvis Costello, The Smiths, BBC Breakfast crew just to mention a few! We're also lucky to have been featured on some awesome blogs and in some cool magazines such as British Vogue, Love My Dress, Brides Up North. Doily Days & more!

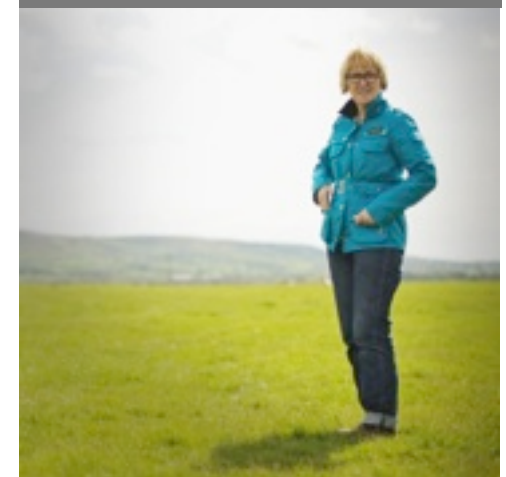

“OH MY GOD the pictures look even better than we imagined they would. We can't thank you enough for taking such brilliant pictures and being absolutely fab to have there on the day. We can't stop looking at them!”

**WE** truly believe that everyone who books a professional photographer for their wedding, deserves the best and most magical photographs of their big day to look back on and to cherish.

Our style is kooky, innovative and most of all- fun!

We like to blend in with your guests and take reportage style, natural photos of you and your guests having the time of your lives. We make an extra special effort to capture those little details and those crucial moments of your wedding day- such as the first time you see each other at the ceremony, your family's face when they see you in your dress/ suit for the first time, the celebratory confetti throwing and all the other little moments that make weddings that little bit extra special.

We also love to take creative and more styled portraits of you both as a couple, so if time allows we tend to whisk our brides and grooms away from the craziness for a short time to get some either romantic/ uber-cool style shots of you both together in your fancy get up- kind of like a mini photo shoot! This is after we've had consultations with you to discuss exactly how you want your photos to look.

**“WOW!** We have shared them with family & friends and have received so many amazing comments about the pics, for example - ‘It looks like your wedding was part of a perfect magazine shoot’! We really are so pleased with the images.

I would absolutely recommend Tim Simpson Photography to everyone! We really didn’t notice Tim & Amanda on the day, to the extent that I was a little worried at first that we weren’t going to have pictures of all the details.... but these images have proved me very wrong! Exactly what you want in your wedding photographers, they are both very talented. Thank You!” *Leanne & Nik*

## SECOND PHOTOGRAPHER

*“So, what is this ‘Second Photographer’ business all about and why should I pay for two photographers instead of one?” we hear you ask....*

Having a second photographer is something we really recommend as it has several benefits when it comes to your wedding day. The main one being the extra amount of coverage you receive, meaning that you will get all those important moments from your day covered from different angles. For example, one of us can be with the bride getting ready, and the other with the groom and as you’re walking down the aisle at the ceremony you will be covered from the front and from the back etc. You will also benefit from the ‘two heads are better than one’ scenario. There’s so much going on at a wedding it can be tricky for one person to capture absolutely everything, this way we *can* be in two places at one time!

Being a family, whoever your second photographer is (Tim Amanda or Bekka) you can rest assured that we are all in tune with one another and that the pair will work seamlessly together to come up with extra super creative shots!

All 3 of us at Tim Simpson Photography have a slightly different way of capturing things through a lens, so you will also get different photographer’s perspectives on your day, but ones that will compliment each other.

## ENGAGEMENT SHOOT

**YOU'RE** engaged! CONGRATULATIONS!

Why not treat yourselves to a pre-wedding engagement shoot? These sessions are a great way to help you relax in front of the camera before your wedding day as well as an enjoyable and fun experience. You'll also get to know us a little better too, which is handy if we're going to be with you on your wedding day journey!

Engagement shoots are tonnes of fun. They last up to 2 hours and can be in one or two locations of your choice (we know some fab locations too if you're stuck for ideas). The results are a series of cutesy but cool images for you to look back on and you can even use one or two of the images for some alternative style wedding invitations- which a few of our past couples have done and they looked great!

We also offer super high quality prints, engagement albums (great to accompany your wedding album!) and bespoke luxury frames in an array of colours, shapes and sizes, so please ask us about these :)

### ENGAGEMENT SHOOT £200

♥ 2 hour session in locations of your choice

♥ A saving of £100 (engagement shoots normally costs £300 when not booked with a wedding)

♥ Private gallery online for viewing, sharing with friends and family & for ordering prints.

# PHOTO BOOTH

*Always a smash hit and our most popular chosen extra is our hilariously charming PHOTO BOOTH!*

Our photo Booth is great fun for you and your guests of all ages. Even those guests whom you feel will shy away usually end up embracing it, resulting in some hilarious photographs for you to cherish forever. We supply all the props, including moustaches on sticks, funny glasses, blackboards for personalised messages, vintage china, wigs, animal masks, etc, etc! Its a great way for people to let their hair down and adds to a relaxed wedding vibe.

We use our experience as portrait photographers to help (if needed) with the posing, the booth is also lit with professional flash to ensure quality photographs and even lighting of groups. We also use the same cameras we use to shoot weddings and our commercial work so the quality is amazing.

We also offer the option of providing a bespoke, personalised guestbook and your photo booth images printed out polaroid style on the night, ready for your guests to stick in the guest book and leave a message for you! The guest book costs £150 extra to the Photo Booth.

Our set-up consists of a backdrop of your choice, 3 booths/stands for props, guest book signing and instant polaroid style printing. It has been designed and made for us by Doris Loves (friends of ours and amazing set designers) and is complete with light up, side-show style Photo Booth signs. It makes a statement for sure.

**So,** you've spent a great deal of time finding that fantastic dress, why just wear it once?! We will take you out or meet at a favourite location and spend some quality time with you and either Cherish (your dress stays clean) or Rock the dress (it may get a bit dirty or wet depending on how brave you are and the weather).

We'll bring some props for optional use and you are welcome to bring some too. It's one more chance to wear your special dress and really show it off to it's full potential and create some great images of you in your frock one more time. You could even bring along the husband/ wife/dog/cat/kids/tortoise to get involved!

## ANALOGUE PHOTOGRAPHY

## ANALOGUE PHOTOGRAPHY £50 PER ROLL

- ♥ Choice from many of our top of the range Vintage cameras; Hasselblad/ Lomo/ Olympus OM10 to mention a few!
- ♥ A truly authentic vintage feel to your images with a few abstract treats.

*"I guess what I love about film is that you see the care of the hand that shaped it and the scars of the dust and hair from the world around it. A life of it's own to be loved and adored... The scan itself is merely a snapshot of the life it held in that moment, just like us it too shall pass. Carried on only by the lives it touched." - Matt Fry (Photographer) 2013.*

We are huge film geeks and absolutely love photographing using our old analogue cameras (of which we have quite the collection!).

So, we thought why not share our love for it by offering it to you lovely lot for your wedding day. We think that film images are that extra bit special, so what better way to capture part of your day?
