♥ HELLO THERE♥

I'm Tim and I have a huge passion for photography and art, I have my own style and way of looking at the wonders of the world through a lens.

I do not generally look to other wedding photographers for my influences, I use fashion and art to express my work. My style is not for everyone I appreciate that, so I'm looking to work with creative art inspired couples, every wedding is a collaboration, if you like what you see please get in touch I will always try to fit in with your budget.

I take great pride in capturing those special, once in a lifetime moments for you to cherish. This brochure will give you a guide on my style and how I inject your personalities into your wedding images. The result will be something truly unique and magical to look back on from your wedding day. My aim is to create art that we will all be proud of and never tire of looking at.

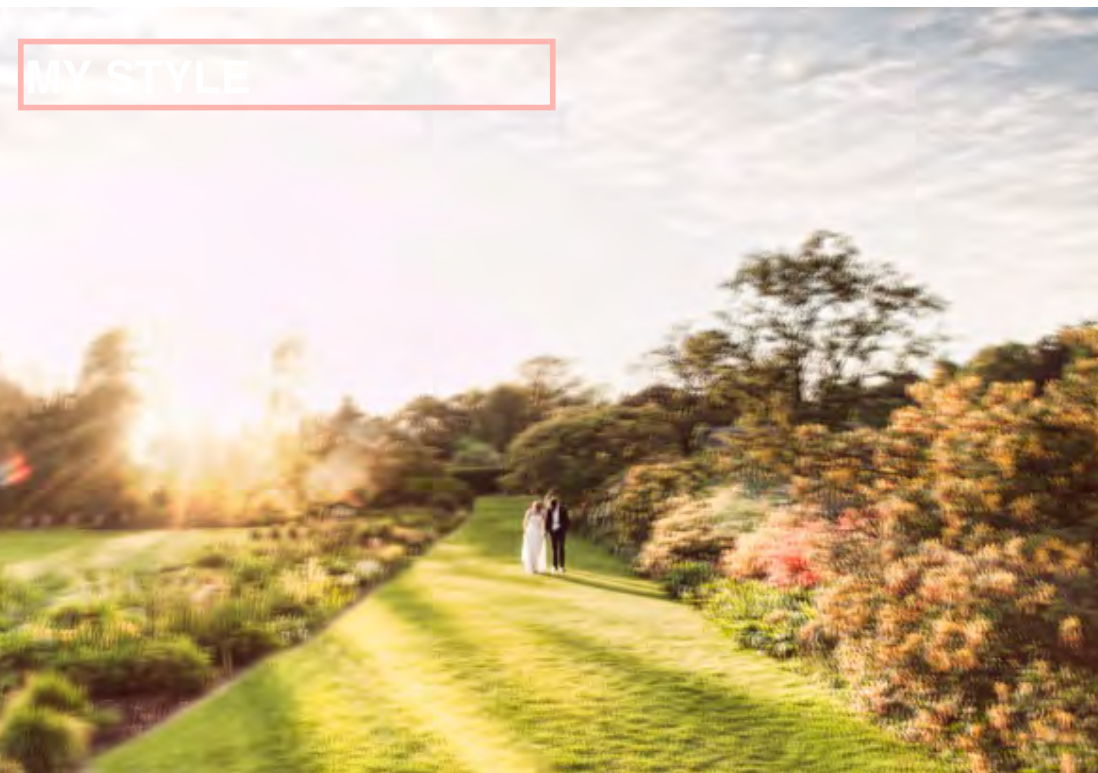

I'm lucky to have been featured on some awesome blogs and in some cool magazines such as British Vogue, Love My Dress, Brides Up North. Doily Days & many man more!

"OH MY GOD the pictures look even better than we imagined they would. We can't thank you enough for taking such brilliant pictures and being absolutely fab to have there on the day. We can't stop looking at them!" *Rach & Stu*

We were not sure about hiring a photographer mostly because we didn't know how or why ?? But Tim made our day that more special and blew away any doubts in our minds. He was helpful and very communicative and then on the day we had so much fun even my partner who hates photos loved it! He got on great with everyone and made the whole experience a joy and the photos were incredible beyond our expectations as well as being great value for money! I would recommend Tim to anyone who wants fun, beautiful photos on their wedding day ! Thank you again from the bottom of our hearts

I truly believe that everyone who books a professional photographer for their wedding, deserves the best and most magical photographs of their big day to look back on and to cherish.

My style is creative, innovative and most of all- fun!

I like to blend in with your guests and take reportage style, natural photos of you and your guests having the time of your lives. I make an extra special effort to capture those little details and those crucial moments of your wedding day- such as the first time you see each other at the ceremony, your family's face when they see you in your dress/ suit for the first time, the celebratory confetti throwing and all the other little moments that make weddings that little bit extra special. Every wedding has a different "feel", this comes from the top down, it comes from you and it's my job to reflect this in our creative imagery

I also love to take creative and more styled portraits of you both as a couple, so if time allows we tend to whisk our brides and grooms away from the craziness for a short time to get some either romantic/ uber-cool style shots of you both together in your fancy get up- kind of like a mini photo shoot! This is after we've had consultations with you to discuss exactly how you want your photos to look. I'm well aware that you may have previously felt uncomfortable in front of the camera, this may be if you have been told to "SMILE" or been contorted into uncomfortable poses, I won't be doing any of this. If you feel uncomfortable in front of the camera then that's how you will appear on the final image. One of the great skills of a good wedding photographer (or any photographer) is to make the subject feel comfortable in front of the camera

I would absolutely recommend Tim Simpson Photography to everyone! We really didn’t notice Tim & Amanda on the day, to the extent that I was a little worried **at first that we weren’t going to**

Where to start Tim and co are amazing from 1st meeting Tim at Crow Hill we knew we wanted him to photograph our wedding so we booked him and was not disappointed the day was amazing with Tim climbing walls laying on the floor etc just to get the perfect shot and that they did we have lost count of how many times we've been through out photos and keep noticing more we've missed the last time round we love every last one of them and can't thank Tim and co for capturing our amazing day it wouldn't of been the same without them they're extremely talented and we could not recommend enough the most friendly out going people you could meet thank you again Laura and Andy Higginbotham

My husband and I knew we wanted something a little different for our wedding photos, and when our venue (Upwaltham Barns) suggested Tim Simpson Photography and showed us their work we were blown away. After getting in contact with Tim and spending far too long chatting on the phone with him about ideas, I knew we needed to book him! Throughout the lead up to the wedding Tim worked with us to perfect our vision for the day and was on hand to answer any questions, particularly regarding the film cameras we were also wanting to use. On the day itself, Tim was just incredible! So friendly and really put us at ease. We had an absolute blast going off with them to take our couple photos and we could tell at the time that the photos we got back were going to be really special. We were not disappointed! Our photos really are beautiful... they are a perfect mixture of artful composition and candid shots and I really feel they capture the happiness and laughter of the day. We have had so many compliments from guests and I cannot wait to make them into an album! The whole experience was wonderful and my favourite part (aside of course from the beautiful photos themselves!) was getting to know a wonderfully kind couple who are so talented and passionate about what they do. Thanks so much guys!!

ENGAGEMENT SHOOT

YOU'RE engaged! CONGRATULATIONS!

Why not treat yourselves to a pre-wedding engagement shoot? These sessions are a great way to help you relax in front of the camera before your wedding day as well as an enjoyable and fun experience. You'll also get to know us a little better too, which is handy if we're going to be with you on your wedding day journey!

Engagement shoots are tonnes of fun. They last up to 2 hours and can be in one or two locations of your choice (I know some fab locations too if you're stuck for ideas). The results are a series of cutesy but cool images for you to look back on and you can even use one or two of the images for some alternative style wedding invitations- which a few of our past couples have done and they looked great!

I also offer super high quality prints, engagement albums (great to accompany your wedding album!) and bespoke luxury frames in an array of colours, shapes and sizes, so please ask us about these :)

Always a smash hit and our most popular chosen extra is our hilariously charming PHOTO BOOTH!

My photo Booth is great fun for you and your guests of all ages. Even those guests whom you feel will shy away usually end up embracing it, resulting in some hilarious photographs for you to cherish forever. We supply all the props, including moustaches on sticks, funny glasses, blackboards for personalised messages, vintage china, wigs, animal masks, etc, etc! Its a great way for people to let their hair down and adds to a relaxed wedding vibe.

I use my experience as portrait photographers to help (if needed) with the posing, the booth is also lit with professional flash to ensure quality photographs and even lighting of groups. Save £200 when booked with our wedding photography service with 2 photographers for full day coverage! I also offer the option of providing a bespoke, personalised guestbook and your photo booth images printed out polaroid style on the night, ready for your guests to stick in the guest book and leave a message for you! It has been designed and made for us by Doris Loves (friends of ours and amazing set designers) and is complete with light up, side-show style Photo Booth signs. It makes a statement for sure.

This style of booth is now much more popular, you get pro quality images and I can accommodate large groups

ROCK THE FROCK

So, you've spent a great deal of time finding that fantastic dress, why just wear it once?! I will take you out or meet at a favourite location and spend some quality time with you and either Cherish (your dress stays clean) or Rock the dress (it may get a bit dirty or wet depending on how brave you are and the weather).

I'll bring some props for optional use and you are welcome to bring some too. It's one more chance to wear your special dress and really show it off to it's full potential and create some great images of you in your frock one more time. You could even bring along the husband/wife/dog/cat/kids/tortoise to get involved!

ANALOGUE PHOTOGRAPHY

ANALOGUE PHOTOGRAPHY £90 PER ROLL

- ♥ Choice from many of our top of the range Vintage cameras; Hasselblad/ Lomo/ Olympus OM10 to mention a few!
- ♥ A truly authentic vintage feel to your images with a few abstract treats.

"I guess what I love about film is that you see the care of the hand that shaped it and the scars of the dust and hair from the world around it. A life of it's own to be loved and adored... The scan itself is merely a snapshot of the life it held in that moment, just like us it too shall pass. Carried on only by the lives it touched." - Matt Fry (Photographer) 2013.

We are huge film geeks and absolutely love photographing using our old analogue cameras (of which we have quite the collection!).

So, we thought why not share our love for it by offering it to you lovely lot for your wedding day. We think that film images are that extra bit special, so what better way to capture part of your day?
